Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt of applicant's amendment with RCE filed 2/22/2005 is acknowledged. Claims 1-31 are pending. Claims 17-31 remain withdrawn from further consideration.

Response to Arguments

Applicant's arguments, see Remark, filed 1/31/2005, with respect to claims 1-16 have been fully considered and are persuasive. The previous rejection of claims 1-16 has been withdrawn.

Applicant's argument that Figures 1 and 2 are data presentation rather than drawing of the invention, so that they can not show the features specified in claims, has been very carefully considered but is not deemed to be found persuasive because the applicant does not have any drawings to show every feature of the invention specified in the claims such as a heat sink, an exothermic device, a heat spreading layer; and carbon nanotubes dispersed in a matrix of ceramic which have been uniaxially compressed in a direction transverse to said heat sink surface. Applicant is advised to see 37 CFR 1.83(a) which states "The drawing in a nonprovisional application must show every feature of the invention specified in the claims. However, conventional features disclosed in the description and claims, where their detailed illustration is not essential for a proper understanding of the invention, should be illustrated in the drawing in the form of a graphical drawing symbol or a labeled representation (e.g., a labeled rectangular box)". It appears that there is a misunderstanding of the applicant that Figures 1 and 2 are required to show every features specified in the claims. As for a suggestion, the applicant is advised to submit another figure(s) in addition to figures 1 and 2 (the additional figures can be labeled as Figure. 3 or 4 accordingly) to show the specified features in the claims and the

specification may be amended accordingly to the new figures. However, no new matter should be entered. Regarding Chang's reference, the examiner is not obligated to discuss whether Chang's application has been done correctly.

The objection to the drawing remains proper and is hereby repeated.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the claimed subject matter of "comprising interposing between said exothermic device...in a direction transverse to said heat sink surface" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Conclusion

This application is in condition for allowance except for the following formal matters:

The drawings have been objected as above.

The withdrawn claims 17-31 should be cancelled upon allowance of claims 1-16.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
